<b>National product classification code (OKP):</b> <b>249000</b>	<b>HS Code (TN VED):</b> <b>3807009000</b>

**Symbols and names of the main regulatory, technical or information document for the product (GOST, TS, OST, STO, (M)SDS, etc.)**

STO 00205423-001-2012. Adhesive Additive AZOL 1003. Technical Specification.

**HAZARD DESCRIPTION:**

**Signal word: CAUTIOUS**

**Brief** (word description): low health hazard product. Irritating to eyes and skin, prolonged and repeated exposure causes drying and defatting of the skin, can be absorbed through the skin. Flammable product. Can contaminate water bodies and soil.

**Full:** see 16 Sections of the MSDS below.

MAIN HAZARDOUS COMPONENTS	Occupational Exposure Limits, mg/m <sup>3</sup>	Hazard class(es)	CAS No.	EC No.
Pitch concentrate	Not determined	No	8016-81-7	231-414-4
- tall-oil fatty acid	Not determined	No	61790-12-3	263-107-3
- oleic acid (9-octadecenoic acid)	5	3	112-80-1	204-007-1

<b>Adhesive Additive Azol 1003</b>	<b>Safety Data Sheet Registration</b> <b>No. 00205423.24.30492</b> <b>Valid until 8 April 2018.</b>	<b>Page 2 of 9</b>
------------------------------------	---	--------------------

**IUPAC** - International Union of Pure and Applied Chemistry

**GHS** - recommendations of UN ST/SG/AC. 10/30 “Globally Harmonized System of Classification and Labelling of Chemicals”

**OKII (OKP)** - All-Russian Classifier of Products

**OKIO (OKPO)** -All-Russian Classifier of Enterprises and Organizations

**FEACN** - Foreign Economic Activity Commodity Nomenclature

**CAS No.** - a unique numerical identifier assigned by Chemical Abstracts Service

**EC No.** - a unique seven-digit identifier assigned by the European Chemicals Agency

**OELw.a.** - Occupational Exposure Limits, mg/m<sup>3</sup> (short-term exposure limit/TWA)

**Safety Data Sheet** - Safety Data Sheet of Chemicals (substance, mixture, material, wastes)

Safety Data Sheet complies with:

- recommendations of UN ST/SG/AC. 10/30 GHS;
- EC Regulation No. 1907/2006 concerning Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), Annex II

**Signal word:** - either word **Dangerous** or **Cautious** (or **None**) is specified in accordance with GOST 31340-2007 *Labelling of chemicals. General requirements.*

Adhesive Additive Azol 1003	Safety Data Sheet Registration No. 00205423.24.30492 Valid until 8 April 2018.	Page 3 of 9
-----------------------------	--	-------------

## 1. Identification of the substance/mixture and of the company/supplier

### 1.1. Product identifier

1.1.1. Technical name: Adhesive Additive Azol 1003  
 1.1.2. Relevant identified uses: The product is intended as an additive to asphalt cement and  
 (including uses advised against) polymer modified asphalt cement when preparing bitumen-concrete mixtures /1/.

### 1.2. Manufacturer/supplier information

1.2.1. Full company name: OAO Kotlas chemical plant (OJSC)  
 1.2.2. Mail address: Koryazhma, Arkhangelsk Oblast, 165651  
 1.2.3. Emergency telephone number (including time-limits): (81850) 3-11-88  
 1.2.4. Fax: (81850) 3-08-46  
 1.2.5. E-mail: [khz@atnet.ru](mailto:khz@atnet.ru)

### 2. Hazards identification

2.1. Classification of the product: Low health hazard product to the extent of effect on the human body /1, 27/.

(information on the hazard classification in accordance with the legislation of the Russian Federation (GOST 12.1.007) and GHS (after approval))

2.2. Occupational hygienic standards for the product: Not established for the product /11/.

(OELw.a. or SRLI)

2.3. Label elements  
 (according to GOST 31340-07)

Symbol: None.  
 Signal word: Cautious  
 Brief hazard description: upon eye contact the product causes irritation, upon skin contact it causes mild irritation.

Preventive measures:  
 If skin irritation occurs, seek medical attention.

Eye Contact: rinse eyes carefully with plenty of water for several minutes. Remove contact lenses, if worn, and easy to do. Go on rinsing the affected eye.

Get medical attention if skin and eye irritation persists. Wash hands thoroughly after handling /7/.

## 3. Composition/information on components

### 3.1. Information of the product in general

3.1.1. Chemical Name: None  
 (under IUPAC)  
 3.1.2. Formula: None, complex mixture  
 3.1.3. Characteristics of the composition: It is an ampholytic surfactant (SAS) (derivative product of the  
 (taking into account brand assortment and specification of mixture of agricultural oils phosphatides and tall oil pitch  
 contaminations and functional additives affecting the hazards oxygenates) /1/. Brand assortment: /1/  
 arising from the product, method for the production)  
 - Adhesive Additive Azol 1003 grade A  
 - Adhesive Additive Azol 1003 grade B  
 - Adhesive Additive Azol 1003 grade C  
 Grades are different in component ratio and applications /1/.

### 3.2. Components:

(Name, CAS No. and EC No. (if available), %wt., OELw.a. or SRLI, hazard class(es), references)

Components	% wt.	CAS No.	EC No.	OELw.a., mg/m <sup>3</sup>	Hazard class(es)	References
Pitch concentrate:	Up to 10	8016-81-7	232-414-4	Not determined	No	/11/
tall-oil fatty acid, including:		61790-12-3	263-107-3	Not determined	No	/11/

- oleic acid		112-80-1	204-007-1	5	3	/11/
- rosin acids		No	No	Not determined	No	/11/
- unsaponifiables		No	No	Not determined	No	/11/
- oxygenates		No	No	Not determined	No	/11/
Phosphatide concentrate	Up to 90	No	No	Not determined	No	/11/

#### 4. First aid measures

##### 4.1. Symptoms:

4.1.1. If inhaled:

Under normal conditions, it is not expected to present an inhalation hazard due its low volatility.

Long-term exposure to vapor and aerosol by inhalation (if heated up to 140°C-200°C) can cause throat tickle, cough, and headache /28, 29/.

4.1.2. Skin contact:

Prolonged contact may cause drying and defatting of the skin /17, 28, 29/.

4.1.3. Eye contact:

Redness, tearing, pain /17, 28/.

4.1.4. Ingestion:

Stomachache, nausea, vomiting, and diarrhea /17, 28/.

##### 4.2. First-aid measures to the affected

4.2.1. If inhaled:

Remove casualty to fresh air, keep warm, and at rest, provide clean clothing. Get medical attention, if needed /17, 28/.

4.2.2. Skin contact:

Remove contaminated clothing. Flush contaminated skin with large amounts of water and soap /17, 28/.

4.2.3. Eye contact:

Flush eyes thoroughly with plenty of water for several minutes, seek medical attention if irritation persists /17, 28/.

4.2.4. Ingestion:

Rinse mouth. Drink plenty of water, charcoal slurry, and saline purgative. DO NOT induce vomiting. Seek medical attention /17, 28/.

4.2.5. Counter-indications:

DO NOT induce vomiting.

4.2.6. First aid equipment (first aid kit):

Remove casualty to fresh air and keep at rest. Standard first aid kit, charcoal slurry, saline purgative.

#### 5. Fire-fighting measures

5.1. Characteristics of fire/explosion hazards:

Adhesive Additive Azol 1003 is flammable /1/.

5.2. Indicators of fire/explosion hazards: (a list of indicators under GOST 12.1.044 and GOST R 51330.0)

Flash point: >230°C /1/.

5.3. Hazards arising from combustion products and/or thermal decomposition:

Fire and thermal decomposition may produce toxic products, and carbon oxides harmful for human health /28/.

5.4. Suitable extinguishing media:

For small fires: foam and powder extinguishers, sand, and fire blanket. For large fires: it is recommended to use foam spray /1/.

5.5. Not appropriate extinguishing media:

Water spray jet /29/.

5.6. Personal protective equipment during fire extinguishing: (fire-fighters' PPE)

Fire-fighting suit with a self-rescuer apparatus "СПИ-20" /22/.

5.7. Specific hazards:

Do not come to burning containers. Cool exposed containers with water from a protected position /22/.

#### 6. Accidental release measures

##### 6.1. Measures to prevent hazardous exposure to people, the environment, buildings, constructions, etc. in emergencies and accidents

6.1.1. Required general actions:

Keep non-emergency personnel out of the affected area. Isolate the hazard area. Remove sources of fire, sparks, do not smoke. Use PPE /22/.

6.1.2. Personal protective equipment: (emergency response team and personnel)

Overalls, oil and petrol resistant gloves, butyl rubber gloves, safety goggles, and safety shoes /22/.

##### 6.2. Response measures to emergencies and accidents

6.2.1. Spill, Leak, and Release Procedure:

In the premises:

(including precautions to protect the environment)

Turn on the emergency ventilation. Contain the released material; prevent the product from entering drains. Cover a spillage area with sand or other absorbent material. When transporting:

Take the vehicle to a safe place. Inform the territorial body of the Federal Service for Consumer Rights and Human Welfare Protection. Dike a spillage area; cover it with sand, soil, or

Adhesive Additive Azol 1003	Safety Data Sheet Registration No. 00205423.24.30492 Valid until 8 April 2018.	Page 5 of 9
-----------------------------	---	-------------

other inert absorbent material (DO NOT cover with sawdust or organic fibrous materials. Prevent spillage from entering watercourse, basements, or sewers. Collect contaminated sand (soil or absorbent material) in separate containers, seal and remove to further disposal at a place agreed with the local authorities of the Federal Service for Consumer Rights and Human Welfare Protection. Cover areas of cut-offs with fresh soil. Wash the vehicle surfaces with detergents. Replow the soil /22/.

6.2.2. Fire management:

In case of fire: avoid coming up to burning containers, cool exposed containers with water from a protected position. It is recommended to use foam spray, and full protective clothing /22/.

**7. Storage and handling chemicals during loading-unloading operations**

**7.1. Safety measures when handling chemicals**

7.1.1. Safety measures and collective protective equipment: (including a system of fire and explosion hazard measures)

Supply and exhaust ventilation of the production premises. Regular control over the exposure limits for product components in the air of the workplace. Pressurization of equipment, containers, and pipelines. Use explosion-proof electric equipment and lighting, equipment and pipeline ground. Equipping production premises with basic fire-fighting equipment. Use of PPE.

7.1.2. Measures for protection of the environment:

Minimize formation and accumulation of waste and rags /1/. Pressurization of equipment and containers, compliance with technological processes when handling the product. The analysis of industrial emissions and effluents for the content of harmful substances in permissible concentrations. Collection and regulated waste disposal /1/.

7.1.3. Recommendations for safe displacement and transport:

To ensure the safety of the product, containers with the product are transported in the packaged form with the use of pallets and means of fastening. Conditions on container leak proof should be complied with. Prevent containers from mechanical risk and moisture /1/.

**7.2. Storage:**

7.2.1. Safe storage conditions and terms: (including storage warranty period)

The product packed in drums shall be stored at ambient temperature on pallets in closed warehouses or open areas under cover, preventing ingress of moisture /1/. Storage warranty period is twelve months from the date of manufacturing /1/.

7.2.2. Storage incompatibility:

Oxidizing agents, acids, strong alkalis /28, 29/.

7.2.3. Recommended packing materials:

Steel top plate removing type drums of capacity 100, 200, and 275 dm<sup>3</sup>. Steel top plate removing type barrels of capacity 55 dm<sup>3</sup>. Cardboard winding drums with polyethylene liner with capacity of 25 to 50 dm<sup>3</sup> /1, 10/.

7.3. General safety rules and storage precautions in household use:

Not used in household /1/.

**8. Engineering controls and personal protective equipment**

8.1. Occupational parameters subject to compulsory control (OELw.a. or SRLI):

At production and application: /1/  
Oleic acid - 5 mg/m<sup>3</sup>

8.2. Measures to ensure the content of harmful substances in permissible concentrations:

General and supply and exhaust ventilation of the production premises. Pressurization of equipment. Sealed containers /1/.

**8.3. Personal protection equipment of the personnel:**

8.3.1. General advice:

Avoid breathing vapors and aerosols, avoid direct eye and skin contact with the product, and use PPE. Observe good personal hygiene measures, do not eat when using this product, wash hands after handling the material and before eating, drinking, and/or smoking. Clean and wash protective

- 8.3.2. Respiratory Protection (RPE types): clothing. Undergo training in occupational safety, and regular medical check-ups of the personnel engaged in production /1/.
- 8.3.3. Protective overalls (materials, type): Workplaces should be equipped with respirators “PY-60”, “PY-60 MY”, “ПИП-67А”, or of similar type /1, 3/.
- 8.3.4. Personal protective equipment when using the product in household: Overalls, protective gloves, safety goggles, and leather shoes /1, 6/.
- 8.3.4. Personal protective equipment when using the product in household: Not used in household /1/.

<b>9. Physical and chemical properties</b>	<b>Grade A</b>	<b>Grade B</b>	<b>Grade C</b>
--	----------------	----------------	----------------

/1 /			
9.1. Appearance (physical form, color, odor)	Paste of dark-brown color	Fluid of dark-brown color	
9.2. Odor		Mild characteristic	
9.3. Non-volatile content, %, not less	95.0	99.0	99.3
9.4. Flash point, °C, not lower		230 (for all grades)	
9.4. Viscosity, relative viscosity according to viscosity meter “ВУБ-1Ф”, with the nozzle diameter of 5 mm at 20°C, sec., not more	-	180	175

**10. Stability and Reactivity**

- 10.1. Chemical stability: (indicate decomposition products for unstable products) Stable under the prescribed storage and transportation conditions /1/.
- 10.2. Reactivity:
- 10.3. Conditions to be Avoided: (including hazardous effects when contacting with incompatible materials) Heating, contact with acids, alkalis, and strong oxidizers /27/.

**11. Toxicological information**

- 11.1. General characteristics of exposure: (assessment of health exposure risk (toxicity)) Low toxic product. The most hazardous routes of entry are through eye mucosa and skin contact. Irritant to mucous membranes, prolonged and repeated contact may cause defatting and drying of skin /27/.
- 11.2. Routes of exposure: (respiratory, oral, skin and eye contact) Toxic effects are given for the product in general and on the component in its composition, pitch concentrate. Inhalation, eye and skin contact, and ingestion.
- 11.3. Target organs, tissues and systems of a human: Central nervous system, respiratory system, liver, kidneys, gastrointestinal tract, eye mucosa and skin /28/.

11.4. Data on health hazards of the direct contact with the product, and delayed effects:

- (irritant effect on the upper respiratory airways, eyes, skin, including skin-resorptive effects; sensitization)
- irritant effect
  - skin-resorptive effects
  - sensitizing effects
- Irritant to mucous membranes, prolonged and repeated contact may cause defatting and drying of skin /1, 27/.
- It has skin-resorptive effects /1, 27/.
- Not determined /1, 27/.

11.5. Information on delayed hazards:

- (Effects on reproductive functions, carcinogenicity, bioaccumulative potential, etc.)
- effects on reproductive functions
  - Carcinogenicity
  - bioaccumulative potential
- No data available for the product.
- No studies have been conducted for pitch concentrate /28/.
- No data available for the product.
- No studies have been conducted for pitch concentrate /28/.
- Low /28/.

11.6. Indicators of acute toxicity:

(DL<sub>50</sub>, route of entry (oral, dermal), type of animal; CL<sub>50</sub>, exposure time (hour), type of animal) Adhesive Additive Azol 1003 /27/.

DL<sub>50</sub> > 5000 mg/kg, oral, rat

11.7. Minimum toxic (dose) concentration:

No data available for the product /27/.

**12. Ecological Information**

- 12.1. General characteristics of environmental impact: (ambient air, watercourses, soil) Pollution of water bodies leading to changes in the sanitary conditions of watercourses.

The contamination of soils and groundwater through spills, leaks, and unregulated waste disposal and landfill.

12.2. Environmental Effects:

In case of violation of handling, storage and transportation rules, unregulated waste disposal, and as a result of emergencies and accidents.

12.3. Observable features of exposure:

Formation of a sheen on the surface of the water, changes in sanitary conditions of watercourses, depression of flora of coastal lands, degradation activity in soil.

**12.4. The most important characteristics of environmental effects:**

12.4.1. Hygienic standards: (exposure limits in air, water, including fishery waters, soil)					
Components	OELs in the atmospheric air or SRLI in the atmospheric air, mg/m <sup>3</sup> (LNV <sup>1</sup> , hazard class)	OELs water <sup>2</sup> or APL-water, mg/l, (LNV, hazard class)	OELs fish <sup>3</sup> . or SRLI fish., mg/l, (LNV, hazard class)	OELs or APL soil, mg/kg (LNV)	Data sources
Pitch concentrate	0.1 SRLI	-	-	-	/12, 13, 14/
Tall-oil fatty acids	0.5 (SRLI)	0.01 (org.pl., hazard cl. 4)	-	-	/12, 13, 14/
Oleic acid	0.1 (SRLI)	0.5 (gen., hazard cl. 4)	-	-	/12, 13, 14/

12.4.2. Ecotoxicity:

(CL, EC for fish, Daphnia magna, algae, etc.)

Pitch concentrate /28/  
CL50 fish > 400 mg/l, 96 h  
CL50 >2,000 mg/l, 48 h Daphnia magna  
CL50 > 1,000 mg/l, algae

12.4.3. Distribution and environmental fate through biodegradation and other processes (oxidation, hydrolysis, etc.):

Slowly transformed in the environment.

**13. Waste (residuals) disposal considerations**

13.1. Safety measures when handling wastes from use, storage, transportation, etc.

Safety measures are similar to those recommended for handling the main product (see Sections 7 and 8 of the SDS).

13.2. Information on places and methods of neutralization, disposal, or removal of substances (material) wastes including containers (packing):

Product wastes and used containers are subject to be collected in appropriate containers and forwarded for disposal to waste treatment companies with a permit and license for waste recycling, or places agreed with the local authorities of the Federal Service for Consumer Rights and Human Welfare Protection /20/. Disposal method is incineration.

13.3. Recommendations for waste removal arising from use in household:

Not used in household /1/.

**14. Transportation information**

14.1. UN Number:  
(in accordance with the UN recommendations on carriage of dangerous goods (Model Regulations), latest edition)

Not applicable /24/

14.2. Proper shipping name and/or transportation name:

Adhesive Additive Azol 1003 /1/.

14.3. Types of applicable transport vehicles:

The product is transported by rail and road in accordance with transportation rules effective for that type of transport /1/.

14.4. Classification of dangerous goods:  
(according to GOST 19433 and UN recommendations for dangerous goods transportation)

Not classified as dangerous goods/1/.

14.5. Transportation labelling:  
(manipulation signs; basic, additional, and informational records)

Transportation labelling is in accordance with GOST 14192-96. Manipulation sign:  
"Sealed packing" /1, 8, 10/.

14.6. Packing group:

Not regulated /24/.

<sup>1</sup> LNV means limiting nuisance value (tox. - toxicological; san.-tox. - Sanitary-toxicological; org. - organoleptic; refl. - reflectory; res. - resorptive; refl.-res. - reflectory-resorptive; fish. - fishery (changes in commercial quality of fishery aquatic organisms); gen. - general sanitary).

<sup>2</sup> Water of utility and drinking water bodies and social-community water consumption.

<sup>3</sup> Water of fishery-intended water bodies (including marine)

Adhesive Additive Azol 1003	Safety Data Sheet Registration No. 00205423.24.30492 Valid until 8 April 2018.	Page 8 of 9
-----------------------------	---	-------------

(in accordance with the UN recommendations on carriage of dangerous goods)

14.7. Information on hazards when transporting by road: Not required /21/  
 14.8. Transport emergency card: Not applicable /21, 22, 25/

(when transporting by rail, sea, and others)  
 14.8. Information on hazards concerning international goods transport: Not required /23/

(according to the Agreement on International Goods Transport by Rail, ADR, RID, IMDG Code, ICAO/IATA, etc., including data on hazards for the environment, such as, marine pollutant)

**15. State and international regulations**

**15.1. State regulations**

15.1.1. The RF laws: Law On Technical Regulation  
 Federal Law On Public Sanitary Well-Being

Law On Environmental Protection

15.1.2. Documents regulating requirements for protection of human and environment: Not subject to state registration /30/

(Certificates, Sanitary Certificates, records, etc.)

**15.2. International Regulations**

15.2.1. International Conventions and Agreements: Not regulated by Montreal Protocol and Stockholm Convention.  
 (Whether regulated by Montreal Protocol, Stockholm Convention, etc.)

15.2.2. EC Warnings: Codes and R-phrases:  
 (Danger symbols, hazard statements, etc.) R36/38 - Irritating to eyes and skin. Instructions on safety: S36/37 when handling, use protective clothing, protective gloves.  
 S38 - In case of insufficient ventilation, wear suitable respiratory equipment.

**16. Other information**

16.1. SDS review (new edition): SDS has been prepared for the first time.  
 (It is indicated that SDS has been prepared for the first time, or other cases with indication of the main reason for the SDS to be reviewed)

Adhesive Additive Azol 1003	Safety Data Sheet Registration No. 00205423.24.30492 Valid until 8 April 2018.	Page 9 of 9
